Give your child an adventure in art at Creative Arts Workshop (CAW) this summer, with week-long programs in drawing, painting, pottery, cartooning, mixed media and more. Don't miss eight weeks of summer programming: June 18-August 10.

Adventures in Art is a series of eight week-long sessions. Students may register for as many weeks as they choose — from a single week to the full eight. Programs for 4-6 year olds meet from 9 a.m. to 1 p.m., with an optional extended day program until 3 p.m. Programs for young people entering grades 2-5 or grades 6-8 meet from 9 a.m. to 3 p.m., with an optional extended day program until 5:30 p.m.

CAW's faculty of professional artists will help your child to develop his or her creativity, starting each child on an artistic journey that will last throughout the summer and beyond.

CAW also continues its regular, year-round programming for young people during the summer: **Summer Art Classes** meet weekly for six sessions. Classes are available for all ages, from 2-3 year olds with a parent through teens.

Join us for some summer fun! Enrollment is limited — call today or visit us online for further information.
