www.summeratwooster.org

Cooking, rocketry, tennis, fashion design — with 70 programs to choose from, Summer at Wooster is an adventure for the mind, body and soul. The focus is on fun and friendship. There's action on the basketball court, activities on more than 50 acres of fields and projects that know no bounds.

It's no secret that we've raised the bar on summer programs. We have built our summer tradition with creativity and care for 15 years, encouraging both the individual and a sense of belonging. Our Pre-K through 9th grade group is under the watchful eye of teachers, coaches and early childhood development specialists. With an 8:1 campers-teacher ratio, our campers are safe and well-nourished.

Our Enrichment and Pre-K Programs provides an opportunity for more in-depth study and plenty of fun. The Pre-K Program is structured around weekly themes: Creepy Critter, Discovering the World of Art and more. K-9 campers select from a catalogue of activities including science, fine arts and cooking.

The Recreation Program is based on the idea that play is an invaluable part of instruction. Choices here include swimming, team sports, tennis and games. Competition and cooperation are both alive and well in our three full-length gymnasiums, six tennis courts, baseball diamond, nature trails and game room.

We offer a program that is rich with possibilities. From baking to baseball, centipedes to ceramics, Summer at Wooster provides plenty of opportunities for fun in a safe, supportive and stimulating environment. Make it the place to explore new worlds, make new friends and create lasting memories.

**Our 2012 brochure is available online March 1.
Open house on Saturday, March 3 at 9 a.m.-noon.**
