## Be a player, not a spectator.

An institution in sports camping since 1968, Kutsher's Sports Academy (KSA) prides itself on offering the best of both worlds when it comes to camp! KSA offers children, ages 7-17, the opportunity to learn, play and improve in the sports they love as well as enjoy the best summer of their lives in a fun, caring, traditional camp environment. While integrating specialty training with a traditional camp feel, KSA makes sure that one aspect does not detract from the other, something which is unique in the world of camping!

All of the programs are directed by trained, professional college and high school instructors, as well as current and former professional athletes. They give campers the opportunity to participate, to play and to receive excellent instruction in the activities of their own choosing.

With a 2:1 ratio of campers to staff, they are able to offer individualized instruction, which promotes optimal growth. Children are often given personalized drills to work on based on their specific needs. No other camp offers instruction that is this intimate from such talented adult coaches.

A summer at KSA is the opportunity of a lifetime. The level of instruction found in a specialty camp, mixed with the spirit, camaraderie, and fun of a traditional camp, is what makes KSA a truly unique and special summer experience. Our loving and caring environment truly makes KSA a home away from home. Sessions run from June 18-August 15. Come join the KSA family!
