Fun, interactive and challenging programs for youth in grades 3-12. All classes are based in technology while focusing on a variety of topics to encourage kids in Science, Technology, Engineering, Arts and Math (STEAM) programs.

Our programs are taught by CCSU faculty and alumni, guest faculty, teachers and practitioners who are experts in their fields. All classes include lunch, t-shirts and other goodies.

Programs are taught in variety of STEAM topics which include: Electronic Music, Sports Broadcasting, Multimedia Broadcasting, Zero Robotics, Android Apps, Python, Minecraft, VEX Robotics, Seaperch, Biomedical Engineering, Graphic Design & Specialty Printing, Lego Boost, Elementary Robotics, Video Multimedia and All-Girls Programs.

Two programs are residential programs while all other programs are one- or two-week programs.

There will also be satellite programs on the ECSU campus in Willimantic, CT. Programs will run weekly from June 25 – August 17. No classes the week of July 4th.
