MusicMakers is more than just a music education company — it is a philosophy.

MusicMakers is the only music school that offers sequential-based programs for all age groups. This means that you can start your music education with us as a baby and continue “graduating” on to the next sequential program throughout adulthood, even into the professional level. The many benefits of this approach include becoming completely comfortable in your learning environment and being able to stay under that tutelage as your needs and goals change. You can build relationships here at MusicMakers, and we think of you as our extended family. That makes all the difference in the world to your learning success!

A typical sequence could start with Mini-MusicMakers (ages birth-3) and then continue to Mini-MusicMakers for 4 and 5 year olds. At ages 4-7, students can choose from Sound Beginnings Keyboard and/or Violin Ventures. After these beginning classes, the next move is to private instruction at the 30-minute or 45-minute level, supplemented with Performing Arts Camps, Rhythm Rousers, Children’s Voice Class and Master Singers. An accomplished teen or adult can take 45-minute to 90-minute instrumental lessons.

All of our programs are extremely well thought out and implemented. We have a devoted office staff to take care of your needs and enjoy catering to families and trying to make your lesson times convenient for you. We continually evaluate our teachers and our students, and pride ourselves on our ability to create the best music education programs in the state.
