Lion Hill Farm is located on 23 park-like acres in Easton, Connecticut and has both an indoor and a large outdoor ring. The program stresses safety, love and care for horses while having fun.

Lion Hill Farm Summer Camp runs from June through August. It offers an exceptional riding program for all levels of riders. Beginner riders will learn the fundamentals of horsemanship in a safe and encouraging environment. Advanced riders, will be challenged and learn something new. In addition to learning how to ride, students learn various aspects of horse care.

The sessions for ages 4-6 are tailored to younger students and have two riding lessons. For ages 7-17, the sessions' activities include two riding lessons and 2 hours of 'ground' work with their instructor. The ground work includes grooming and tacking up their horse; as well as learning more about horse care and horsemanship.

Riders are placed in small groups to ensure individual attention and a safe environment. Each week ends on Friday with a mini horse show and barbeque; bring the whole family. At Lion Hill Farm it is important that riders have fun while they learn.

Lion Hill Farm has year-round private and group lessons. Lion Hill Farm horse show series continues monthly through November.

Lion Hill Farm is available for Birthday Parties — please call for more information.
