Make your own jewelry! **Beadworks** Birthday Parties are fun and creative! We can accommodate up to 10 children in our private studio area, where an experienced employee will help each child to create their very own necklace and/or bracelet. Most party packages include materials and start at just \$30 per child. Price includes stringing material, findings, a vial of seed beads, a focal bead/pendant and accent beads. Each child gets to choose their own vial of seed beads and their focal and accent beads, from our party project kit! Each child will leave with a piece of finished jewelry that they made themselves — what better party favor can there be?

Moms: Need a creative Girls Night Out? We specialize in adult beading parties as well! Create your own jewelry using semi-precious stone, glass, or natural beads and precious chains and charms.

Our studio area is also available for use during store hours without a reservation. Come in and choose your beads and our helpful staff will help you get on your way to making your own jewelry!
