Let us help you create memories of your child's special day at **The Bright Spot**, an indoor play space designed especially for children 6 and under. Your child can have a one-of-a-kind party and you can relax and enjoy it!

Choose a party theme that's just right for your child. Whether it's animal masks, music or a princess tea party, we offer themes that children love. We can design a party based on your child's interests and the ages of your guests.

We'll take care of every detail — singing songs, creating crafts and leading fun party games with the children. We provide paper goods and decorations and even help you gather your gifts at the end of a fun party in our warm, friendly atmosphere.

Our playspace was created by an early childhood educator who is also a mom, so all of the details that matter to you, matter to us at The Bright Spot.

Call or email us today and we'll help you plan your child's special day!
